### The Proposed Employee Training & Support Program - Part I

Instructions: If your employees will complete multiple trainings, then please use separate lines to list the number of employees who will complete each training program. For example, if you plan to train 15 R.N.s who will each complete 3 trainings, then list their job title in column B, and the number 15 in column C, and use that row to list the first training they will complete; then go to the next row, and enter R.N. again in column B, and 15 again in column C, and complete that row with the 2nd training described, and so on.

Instructions: The two tables below should result in an "unduplicated" count of the employees that will be trained. This is different from the way you listed them on the worksheet titled "Program Design-Training," where you may have needed to list the same employees multiple times. Here, you will simply put the total number of employees in each job role, regardless of the different trainings that they may be complete. So, following the sample we gave you in the instructions on the "Program Design-Training" worksheet, on this worksheet, you will simply list 15 R.N.'s, then go on to list other job categories.

<sup>\*</sup>Please be careful to distinguish between the employees who will receive a payraise after training (and because of training), from employees who will not receive a pay raise after training, but who are eligible within 1 year of completing their trainings. Notice that in the final column of the table able, we are asking you to specify whether this second type of payraise is a "regularly scheduled increase" or whether it is "a result of the training."

#### Other Instructions for completing the Budget Form

Your "Program Total" Column should reflect the full cost of the program, and should sum to the amounts reflected in the columns to the right of it.

#### Training & Support Program Budget 2015

Please insert rows as needed to accommodate additional line items; and please be sure to review the comments regarding budget categories (comments can be viewed by hovering over the boxes with red triangles appearing in the upper right hand corners). Also, please note that the gray bars provide examples, and should not be used by you. Please begin your entries in the rows below the gray bars. Subtotal rows are designed to automatically calculate.
